FOLLOW CLOSE ON DYNAMITE CLEW

Developments in the Los Angeles Outrage Are Expected Soon.

TRAIL IS HOT IS REPORT GIVEN OUT

Still Burrowing in the Debris in Search of the Dead.

San Francisco, Cal., Oct. 4.—That progress in the search for the perpetrators of the Los Angeles Times disaster may be made today is indicated by a statement given out here late last night by Earl Rodgers, the Los Angeles attorney, who is in charge of the investigation of the explosion. Mr. Rodgers said:

"We have important information in our possession."

He expressed the hope that the investigation would develop sufficiently today to justify a disclosure of the findings made.

Determined efforts are being made to trail the launch "Peerless," in which the dynamite purchased at Giant, Cal., by the trio of suspects now being sought was taken away.

Frank Leeman, a fisherman, says the launch came into a cove at Old Sausalito on the night of Sept. 20. He said he could see three men about it at night, but no trace of its occupants was to be observed by day.

When Leeman returned from his fishing on the morning of Sept. 23 the boat was gone.

From the time the white launch was seen at Sausalito by Leeman it was not observed again until about 3 o'clock yesterday morning, when William Gorman saw what is believed to have been the same boat anchored off North Sausalito. At noon the craft had disappeared.

Aluminum letters forming the name "Peerless" were purchased from a local firm on the evening of September — by two men who tallied with the description of two of the trio of suspects who bought dynamite at Giant.

It is reported this afternoon that the launch which, under the name of Peerless, carried dynamite from Giant, has been found abandoned in the marshes near Alvise.

WORKING IN THE RUINS.

Los Angeles, Cal., Oct. 4.—The seventh body and part of a backbone were recovered from the ruins of the Times building late yesterday. Several bodies are still pinned beneath the mass of twisted steel girders. The bodies are close together and this is accounted for by the belief that the victims were caught in the elevator shaft.

It is impossible to identify six of the bodies recovered.

The police are at present on twelve instead of eight hour shifts. The extra four hours are spent at police headquarters as members of a reserve force, which numbers one-third of the membership of the department.

Non-Union Men in Panic.

The non-union men employed at the Llewellyn Iron works were thrown into a panic yesterday afternoon by the discovery of what was supposed to be an infernal machine in a brick warehouse near the plant, but which later turned out to be a sort of grim joke. Some one had arranged a small electric buzzer, with a clock and two dry-cell batteries attached, in a tin box and secreted it in the warehouse. The continued buzzing finally attracted attention and the apparatus was taken hurriedly to a police station. It is supposed someone was trying to scare the workmen.

BANKERS AT LOS ANGELES.

American Association Convention Gets Down to Business.

Los Angeles, Cal., Oct. 4.—Delegates to the thirty-sixth annual convention of the American Bankers' association met in the Auditorium this morning as a committee of the whole to receive the reports of the various committees. The convention was called to order at 10 o'clock by President Lewis E. Pierson. Registration at the headquarters of the credentials committee showed the arrival of more than 2,000 delegates. Officials of the association say they expect at least 2,500 by night.

"UNWRITTEN LAW" SAVES.

Katherine Botti, 13 Years Old, Acquitted of Murder Charge.

Pittsburg, Oct. 4.—Thirteen year old Katherine Botti, who admitted killing her god father, Pasquale Volpe, with an ax and red hot poker, was cleared of a murder charge late today by the verdict of a jury after an hour's deliberation. The defense had been based on the unwritten law.

Harrisburg, Pa., Oct. 4.—The seventh state ticket to be filed at the state capitol for certification to the various counties for the November election was entered today, under the name of the industrial party. Its papers were signed by about 2,400 persons, some of whom were members of the former socialist labor party.

LAFOLLETTE GOES UNDER THE KNIFE

Wisconsin Senator Has Operation for Removal of Gallstones.

PROSPECTS FOR RECOVERY GOOD

Danger Will Not Be Over for Some Days Owing to Complications.

Rochester, Minn., Oct. 4.—Senator LaFollette was operated upon for gall stones at 8:20 a. m. today and the operation was completed at 8:40 a. m. Eight stones were removed from the gall bladder. Prospects for recovery are good.

All of the gall stones were small.

"The complications as diagnosed were a slight adhesion of the small intestine to the gall bladder, acute inflammation of the pancreas and enlarged lymphatic gland due to septic matter in the gall bladder.

"The danger will not be over for several days on account of these complications. He stood the operation well and prospects for recovery are good."

The above bulletin was issued at 11 o'clock today from St. Mary's hospital and was signed by Drs. George Kenan, C. H. and W. J. Mayo.

Patient Rallied Quickly.

In explaining the bulletin issued Dr. Philip Fox said:

"The operation disclosed exactly what we expected and bears out in every detail the exhaustive diagnosis of last Friday and Saturday.

"I cannot set a time when the senator may be pronounced out of danger but there is no modification to be made of previous statements that he will be out in three weeks."

Senator LaFollette began to rally from the ether in the operating room and in the hallway while being removed to his room Dr. Fox asked: "How are you feeling, Bob?"

"Sore, but bully," replied the senator.

This was but a few minutes after the operation.

His mind was entirely clear. When he arrived at his room he asked for Mrs. LaFollette and she went to him at once.

KRAUSE TOOK PLUME AND $25 ON A CHECK

Forger Dealt in Millinery and Caught the Diehm Store.

Henry Krause, who was in Fort Wayne for a short time on September 21, also took a fly at some millinery and George A. Diehm is anxiously waiting for the return of a check from the Hammond National bank as he thinks he is also a victim to the extent of $25 in cash and one plume that sold for $25.

As soon as he heard of the checks passed on F. M. Smith & Co. and the Young jewelry store he came to the conclusion that he had also taken a bad piece of paper, but returns had not come in from the bank. The man from whom he took the check answers the description of the man that victimized the other business men.

There was no difference in the methods. The fellow wanted a nice plume and he had a check payable to Henry Krause drawn on the First National bank at Hammond and bearing the name John P. Krause. It had also apparently been certified and signed by the cashier.

Shabbona, Ill., Oct. 4.—Joseph Nolan, editor of the Shabbona Express and the Lee (Ill.) Times, while playing "Indian" with his 8-year-old son today was shot and fatally wounded by the child.

200 VENIRMEN; NO JUROR.

Louisville, Miss., Oct. 4.—The work of securing a jury to try Swinton Permenter, charged with the murder of Miss Janie Sharpe, a popular young woman, several months ago, was resumed in the criminal court this morning. One venire of 200 men has been exhausted without securing a single juror. No violence is anticipated while the court is proceeding with the trial.

INDIANA MAN IS SHOT.

Benjamin Norman Gets Bullet in Resisting Robbery.

Vincennes, Ind., Oct. 4.—Benjamin Norman, of Oaktown, a small town near here, was shot through the lungs in attempting to stop a robber early today and is dying in a local hospital. Norman with three tramps was sleeping in a barn near here when the quartet was held up and robbed of what little money they had. The three tramps submitted to the holdup, but Norman attempted to escape and was shot. The police were given a description of the assailant.

WRESTLING WITH A LEGAL PUZZLE

Question of Constitutional Privilege in Lorimer Case.

SEEK TO EVADE A CROSS-EXAMINATION

Three Men Under Indictment Raise Point Before Committee.

Chicago, Oct. 4.—Whether Minority Leader Lee O'Neil Browne, State Senator John Broderick and Representative Robert E. Wilson, each of whom is under indictment on charges of bribery or conspiracy to bribe, can avail themselves of the constitutional privilege of refusing to give self-incriminating testimony is a question still undecided by the Lorimer investigation committee today.

The question of immunity from cross-examination has been raised in behalf of State Senator Broderick, who for a few minutes yesterday was on the witness stand and the final ruling it is believed will be applicable to Browne and Wilson.

Following a short session, during which only two witnesses for the "defense" were examined, the senatorial committee adjourned at noon today until tomorrow as there were no witnesses at hand for an afternoon session.

The committee when it met this morning was expected to decide whether the testimony of State Senator Broderick shall be heard now or given after his trial in Sangamon county, where he is under indictment on a charge of having bribed State Senator D. W. Holstlaw to vote for Senator Lorimer and with having paid Holstlaw $2,500 for so voting.

Objects to Cross-Examination.

Broderick's attorney appeared before the committee yesterday and said his client was willing to testify but objected to being cross-examined. Minority Leader Lee O'Neil Browne it is understood is ready to appear before the committee and the Broderick ruling may be extended to him should he make a similar plea.

James W. Doyle, a machinist, who was a member of the railroad and labor lobby at Springfield, was called to the witness stand by the "defense" and declared that in his opinion Representative Charles A. White had sought to secure a bribe. He testified that White said to him "How is the railroad legislation coming on? You fellows are the cheapest bunch I ever saw. What do you expect us to live on? 'Wind?'"

Representative George W. Alschuler, democrat, testified he and Hopkins were bitter enemies and he had been ready at any time to vote for any reputable republican for senator other than Hopkins. He was never offered money for his vote, he said, but had urged other democrats to vote for Lorimer for the purpose of defeating Hopkins.

WRONG MAN IS SLAIN.

Isaac Perkins, Kentucky Farmer, Victim of Another's Feud.

Lexington, Ky., Oct. 4.—Victim of another man's feud, Isaac Perkins, a farmer of Magoffin county, was shot and killed from ambush. The intended victim of the assassins traversed the same mountain path a few hours later and found Perkins' body early today. Clews to the identity of the murderers are being kept secret by the authorities of the district. Even the name of the man who had been warned that his death had been planned has not been announced.

CHEERING NEWS FROM OHIO.

Sauer Kraut Famine Has Been Averted by Recent Rains.

Fremont, Ohio, Oct. 4.—The sauer kraut famine, which was threatened a month ago, has been averted by the heavy rains of the past few weeks. Cabbage which was selling at ten dollars a ton during the dry spell has dropped to three dollars a ton and is plentiful at that price. All the plants of this city, which is the American sauer kraut center, are working overtime.

TALKING TO FIREMEN.

Colonel Roosevelt to Start Southern Tour Thursday.

Oyster Bay, Oct. 4.—Col. Theodore Roosevelt left Oyster Bay by automobile this afternoon for Freeport, where he is to speak today before the Southern New York Firemen's association. He is to speak only a short time at Freeport, returning to Sagamore Hill late in the afternoon.

Col. Roosevelt will go to New York tomorrow and spend the night starting on his southern tour on the following day.

WILL KEEP COLONEL BUSY.

Two More Indiana Towns Added to Roosevelt's Itinerary.

Indianapolis, Oct. 4.—Veedersburg and Fortville have been added to Colonel Roosevelt's itinerary in Indiana on Oct. 13 and the state republican committee is arranging for all day meetings in the two places. A number of state speakers will be on hand to address the gathering before and after the colonel talks, if the plans carry. All day meetings also are being arranged for Covington, Crawfordsville, Colfax and Lebanon, where Colonel Roosevelt will be the big attraction on Oct. 13.

HEAD OF MYSTIC SHRINE ARRIVES IN FORT WAYNE FOR MARDI GRAS.

FRED A. HINES,

Imperial Potentate for North America, Now Honored Guest of Mizpah Temple, Fort Wayne.

NUMBER OF DEAD IN BARGE DISASTER GROWS LESS

Sailors of New Hampshire Supposed Lost Are Now Turning Up.

New York, Oct. 4.—There was still hope today that the list of probable drowned from the swamping of the battleship New Hampshire's barge in the Hudson river last Saturday night would be further reduced by reports from men now set down as dead or missing but who still may be alive.

Meanwhile the task of dragging the river for bodies of the victims was continued. Sharp lookout also was kept for bodies swept down by the tide, it being believed the strong current in the river made the recovery of bodies floating lower down the stream more probable than in the vicinity of the calamity.

The list today still stood at given out by the fleet officials as 23 probably dead and eight missing.

The board of inquiry resumed its sessions again today when it was expected the testimony of Midshipman Godfrey Chevalier, who was in charge of the wrecked boat, would be taken. The young officer, exhausted by his heroic struggle at the time of the disaster, was not sufficiently recovered yesterday to undergo the ordeal of examination.

The board of inquiry today sent for the crew of the boat which was overturned and further examined them.

Not Due to Faulty Construction.

It is understood the members of the board have determined that the upsetting of the boat was not due to any fault in the construction. According to naval officers the boat was built to hold eighty men with three days' provisions and that the boat would not be dangerously overcrowded with 88 men, the number. It is now alleged that was in the boat at the time of the accident. Up to this time no bodies had been recovered today. One additional man, L. W. Sieber, a seaman, who was thought to be a victim, was heard from. He is the only man, according to the officers, who was on the boat and reported missing from whom word has been received. The other missing men reported had not been on the boat. Sieber, when the boat turned over swam north to 196th street, where he made a landing almost completely exhausted. Instead of going to the ship he went to relatives in Brooklyn.

SEVERAL ACCOUNTED FOR.

Washington, Oct. 4.—Dispatches were received by the navy department today that several more men who had been reported missing as a result of the accident to the battleship New Hampshire's sailing launch, are alive. Justus Turner, of Brooklyn, has returned aboard ship and Norman Blight, of Roxbury, Mass., a coal passer, and A. R. Chambers, of Worcester, Mass., a private of marines, were seen ashore yesterday.

T. Bonsall, of Philadelphia, an ordinary seaman; James Honan, of Green Creek, N. J., and E. W. Seiber, of Chicago, an ordinary seaman, telegraphed they were "alive."

Mrs. E. Testmeyer, of Montana, arrived in the city this afternoon and will visit her parents, Mr. and Mrs. Fred Starke, of 1225 Spy Run avenue. Mrs. Starke has been very ill for some days.

TWO DEAD; ONE HURT IN NAVY YARD EXPLOSION

Fatal Accident at Washington Claims All in Shop at the Time.

Washington, Oct. 4.—Two men are dead and one seriously injured as the result of an explosion in the high explosive building of the Washington navy yard shortly before 2 o'clock this afternoon.

The dead:

JOHN CADEMARTORI and JAMES GRIFFITH, both first-class ordnance men.

The injured man is Charles Scheide.

Cademartori was instantly killed. Griffith was so badly injured that he died shortly after the accident. These three men were the only ones at work in the shop at the time.

The explosion took place in the fuse shop in which the men were working at the time of the accident. The three men were hurried to the casualty hospital.

The accident happened while high explosive fuses were being assembled. One of the fuses exploded and ignited others near by. The roof of the building was peppered with a hundred holes.

Captain Beatty, the commandant of the navy yard, has ordered a board of investigation to determine the cause of the accident.

SOME SMASHING FIGURES.

Record-Breaking Transactions by New York Clearing House.

New York, Oct. 4.—The annual report of the New York Clearing House association which was submitted at the annual meeting held this afternoon showed record-breaking transactions during the past year. This report for the year ending Sept. 30, showed total transactions of $106,749,253,036, consisting of $4,195,293,397 in balances and $102,553,959,069 in exchanges; the latter comparing with $99,257,662,411 clearings in the previous year.

The largest clearings of any one day totalled $736,461,549 on Nov. 3, 1909, which also was the largest in the history of the organization.

FINCKE'S CASE CONTINUED.

Norfolk, Va., Oct. 4.—The case of Captain C. W. Fincke, of the navy collier Ajax, arrested last night on the charge of embezzling $5,000 in government funds, was continued by United States Commissioner Stephenson today until Oct. 6. Captain Fincke says though allowed ten days in which to settle in full if only he was given a ten minutes. He declared he would settle his accounts he was not given reasonable time.

PEACE MAY BE IN SIGHT.

Baltimore, Md., Oct. 4.—Negotiations for an amicable settlement of the controversy between Governor Crothers and the board of police commissioners were opened today. The armed guard maintained at the entrance to the police headquarters will be withdrawn and no further talk of calling out the militia to enforce the governor's orders is heard. The dispute probably will be settled in the courts.

NEW CHAIRMAN IS "OLD GUARD" MAN

Ezra P. Prentice Chosen by Republicans in New York.

HE LED FIGHT ON ROOSEVELT PLAN

Successor of "Tim" Woodruff Opposed to Direct Nominations.

New York, Oct. 4.—Ezra P. Prentice, a deputy attorney general and former assemblyman from the Twenty-fifth district, was today chosen chairman of the republican state committee to succeed former Lieutenant Governor Timothy L. Woodruff.

In seconding Mr. Prentice's nomination Wm. Barnes, Jr., said it gave him especial pleasure to do this because of the nominee's well known opposition to direct nominations.

Mr. Prentice has long been prominent in republican politics. He is a lawyer, a graduate of Princeton university and of New York law school, has served several terms in the state assembly, and was a member of the Armstrong insurance investigating committee. He has been a member of the republican state committee from the Thirtenth congressional district.

At the recent state convention at Saratoga, Mr. Prentice spoke in opposition to the direct nominations plank in the platform adopted by the progressives under the leadership of Col. Roosevelt and in favor of the substitute plank proposed by the old guard.

In a brief speech accepting the chairmanship, Mr. Prentice, however, declared his intention to uphold and support every plank in the platform.

MAY GO TO SUPREME COURT.

Question of When Wisky is Used to Excess Puzzles Georgians.

Washington, Oct. 4.—In what quantity and how frequently may a man indulge in whisky in Georgia before he may be said to "use" it to excess, is one of the questions which the supreme court of the United States may feel itself called upon to consider in a short time. Application has been made to the court to review the judgment of the federal courts of South Carolina, refusing to allow the estate of Jos. P. Johnson, deceased, of Dorchester county, South Carolina, to recover $10,000 on an insurance policy, issued by the State Mutual Life Insurance company, a Georgia corporation. The court directed a verdict in favor of the company on the ground that Dr. Johnson in making application for a policy made fraudulent representations as to his sanity. Attorneys for the estate claim that Dr. Johnson had not been insane, but admit that he was once at an insane asylum for eighteen days as a result of delirium tremens, produced by a sudden over-indulgence of whisky and not an excessive use of the liquor.

ITALIANS IN A PANIC.

Black Hand Outrages at Dallas Stir Residents There.

Dallas, Tex., Oct. 4.—Following the attempt of the alleged "Black Handers" Sunday to shoot Vito Gennousia, an Italian merchant, and the killing Monday evening of Caroline Bicanio, the 9-year-old daughter of Joe Bicanio, and the wounding of the latter, Italians in Dallas are in a panic. The police today are exerting every effort to run down the assassins. Gennousia is in bed with a broken ankle, caused by a pistol bullet. It is the second attempt on his life within a few months. A shotgun and pistol were used on Bicanio and his little daugher by two unknown Italians, who escaped in a buggy. The police have made two arrests, but have not identified the men.

PLENTY OF STAKE STRAPS.

Witness Gives Some Details of Illinois Central Graft Schemes.

Chicago, Oct. 4.—H. A. Sims, recalled to the witness stand in the Illinois Central graft case today gave some interesting details of the alleged swindles practiced on the road.

He said that in one instance the road was charged $427 for 150 stake straps, alleged to have been placed on a single coal car. This was a manifest absurdity, he said, as two stake straps will fully equip a car. On another occasion witness stated that the road was charged for putting wheels on a fifty ton coal car. This he said, was another absurdity, as the minimum weight of coal cars is forty tons.

WILL RETIRE THIS WEEK.

Hughes Quits Governorship to Become Supreme Court Justice.

Albany, N. Y., Oct. 4.—After serving the state since January 1, 1907, Gov. Charles E. Hughes will retire this week to assume his new duties as a member of the United States supreme court. Because of pressure of business he will not formally resign tomorrow, as was expected.

Lieut. Gov. Horace White will succeed to the governorship.

CONFERENCE AT CINCINNATI.

Cincinnati, O., Oct. 4.—Many delegates and visitors to the triennial convention of the Protestant Episcopal church in America are here for the opening tomorrow. The conference will continue for twenty-three days, during which the many subjects of interest to the church will be considered.

HEAD OF MYSTIC SHRINE IS HERE

Imperial Potentate Fred A. Hines Arrives for Mardi Gras.

WILL MAKE CHANGE IN EVENT OF RAIN

General Committee Agrees on Action if Weather Proves Bad.

Fred A. Hines, of Los Angeles, imperial potentate for North America, Ancient Arabic Order Nobles of the Mystic Shrine, and chief guest of honor of Mizpah temple, arrived in Fort Wayne this morning for the mardi gras celebration which will open tomorrow morning and rule with its merry sway until Thursday evening.

Mr. Hines, who is widely known as the head of this addenda of the Masonic fraternity, has given largely of his time and his effort to the Mystic Shrine, and by virtue of his position at the head of the Shriners in America is easily foremost of the distinguished fraternal leaders who will honor the big event of the Fort Wayne Shriners with their presence. A large number of other officers of the imperial council will also be present, and some of them will reach the city this evening.

Headquarters Opened.

Official mardi gras headquarters were opened this morning in the banquet room of the Anthony hotel, and the scene is already a busy one. Charles E. Read is chairman of the headquarters committee, and with his various assistants is getting arrangements in shape to handle the arriving Shriners as rapidly as they reach the city.

Registers have been opened for both out-of-town and local Shriners, as well as candidates, and here tickets are issued for badges, the reviewing stand, the ball, the banquet and other functions which will be crowded into the two full days of spectacle and merriment which the Fort Wayne nobles have prepared for the entertainment of their guests which are expected to number fully 25,000.

With steady rainfall during the earlier portion of today, hopes of the Mystic Shriners are all centered upon fair weather for tomorrow and Thursday. The best promise the weather man could offer this morning was "unsettled with showers tonight or Wednesday." Some of the decorations about the city already show the effects of the rain, and the faithful are appealing to Allah for fair weather during the event for which they have been laboring for weeks.

But If It Should Rain—

While the Shrine leaders are optimistically declaring their firm belief in fair weather for the event, the general committee at its meeting Monday evening took the precautions to make some arrangements that take into account the possible contingency of rain. These are in brief:

If the weather be too bad on Wednesday evening, the big parade will be postponed to Thursday evening, in which event the ceremonial session and banquet will be deferred until after the pageant. The ball on Wednesday evening at the Minuet, however, will be held as originally arranged.

In the event of rain Thursday morning the competitive patrol drills scheduled for the base ball park will be held at Princess rink.

The request was sent out today for all candidates who have been elected to receive the degree at the coming ceremonial session to report at the Anthony hotel headquarters to receive cards to the ball and other events, the same as are given to those already members.

All Must Wear the Fez.

Another edict given out today is that all Shriners must wear the fez while

BARS FREIGHT RATE ADVANCE UNTIL FEBRUARY

Interstate Commerce Commission Holds Up Scheduled Raise.

Washington, Oct. 4.—Advance in transcontinental freight charges varying from 5 to 10 cents a hundred pounds from points of eastern origin to Pacific coast terminals were suspended today by the interstate commerce commission until February 6, 1911, pending an inquiry by the commission into the reasonableness.

The order of suspension affects several hundred interstate carriers operating east of the Rocky mountains. East of the Mississippi river the carriers involved are practically those north of the Ohio and Potomac rivers, although the rates advanced apply to all Virginia points and to some points in Alabama. The tariffs filed with the commission were to have become effective Oct. 10. The proposed increases apply to all sorts of freight shipments, both class and commodity.

No time has yet been fixed for a hearing as to the reasonableness of the proposed rates, but it will be held probably late in November or in December.

ONE HONEST SALOON FOUND BY GIRL AND MAN

Helen Bowers Said She Was Refused Drinks—The City Court.

In her testimony in the city court today where she was held on a charge of loitering, Helen Bowers said that she and Will Lane, a painter, who picked her up on the street yesterday, were refused drinks in one saloon and told to get out. This saloon is on Columbia street, but the girl did not know the name of the proprietor or the location.

The judge said he was glad to find a saloonkeeper honest enough to refuse the couple beer or to allow the girl to stay on the premises and added that if they were all of that kind there would be fewer young girls led astray. She said she is nineteen years old and was allowed to go to the home of an aunt at Urbana, O. Lane, who gave the name of Lee when he was arrested, did not appear and his fine of $5 and costs for public intoxication was paid out of his cash bond on a plea of guilty entered for him.

Gives a New Bond.

Mrs. Rose Tresselt waived a preliminary hearing on the charge of involuntary manslaughter and was held to the circuit court under a bond of $10,000. This is the same amount as was fixed before the preliminary and it was signed as the other was, by her husband, Fred Tresselt, and Frank E. Bougher.

The Other Cases.

Ralph Dunlap, charged with collecting money for a Chicago silverware concern and keeping it, was fined $15 and costs and given ten days in jail. His brother, Clarence Dunlap, on the same charge, was fined $10 and costs and given six months in jail, but the sentence was suspended.

Harry Hewitt, an old offender who robbed Burg's saloon on East Berry street of $22.80, was held to the circuit court on a charge of burglary with his bond fixed at $1,000. He was arrested a short time after the theft by Junk and Madden, plain clothes men.

Frank Cook and Walter Rich, plain drunks, were let go, and York Stanley was fined $1 and costs.

Frank Ivey and Ethel Higgs, of Elkhart, who had been living together on Pearl street, were taken to headquarters and the girl let go in charge of a relative. Ivey was held until tomorrow.

MUNICIPAL ABATTOIR CONDUCTED BY A TEXAS CITY

Unsanitary Conditions of Paris Slaughter Pens Caused Plant.

Paris, Texas, Oct. 4.—The first and only municipal abattoir and animal reduction plant in the United States is in Paris, Texas, and has been in successful operation for several months. It marks the beginning of a new era in municipal ownership of industries that directly concern the welfare of the people. It is said that the idea is practical for all cities and that it would work to particular advantage in towns of 10,000 to 100,000 population. If generally adopted it may lead to a solution of the problem of high cost of meat and other food products.

In Paris, with its estimated population of about 15,000, the municipal sanitary department found it very difficult to supervise the several separate slaughter houses that were maintained by the butchers. The health of the people was constantly menaced by the unsanitary conditions under which the animals were slaughtered and the meats handled. In describing the situation that existed prior to the establishment of the municipal abattoir, Mayor Ed H. McCuistion said:

"These private slaughter houses were rudely constructed and most of them were in some swamp or thicket. Immediately surrounding the houses were kept hogs for the purpose of destroying the offal and waste from the slaughtered animals. These pens being removed from the city, the only water used was ordinarily from a pool on the premises or a shallow well. In either case it was about as filthy as it could be. During the summer flies were about the premises in untold millions. They covered the slaughtered animals. The odor was terrific and, indeed, the whole surroundings were such that it appeared to me that the meat slaughtered under such conditions was not at all fit for food."

Mayor McCluistion and other members of his administration who were endeavoring to improve the sanitary conditions of the city and protect the health of the people, tried to induce the butchers to form a stock company and build an abattoir and reduction plant, operating it themselves, and allowing the city to furnish an inspector only, but on account of jealousy and business rivalry this could not be accomplished.

The city then determined to establish its own abattoir and to provide rules and regulations that would insure the slaughtering of only healthy and well conditioned animals and the delivery to the people of meat in perfect sanitary condition. The proposition was agitated and met with general favor on the part of the public. An issue of $10,000 of bonds was voted for the construction of the plant. It was equipped with sanitary arrangements and is modern and complete in every respect. Mayor McCluistion says:

"The new plant is being operated to the entire satisfaction of every butcher and every resident of the city so far as I have been able to hear. We are greatly delighted with the success that has crowned our efforts in this work, and we believe that the establishment of this plant has marked a distinct era in the general sanitation of our city."

It is not intended that the abattoir and reduction plant shall be money-making concerns. They are operated for the sole benefit of the people, and whatever financial benefit shall accrue therefrom the people are expected to share.

NEW BANK STAMPS READY.

Five Millions for Postal Savings Use Have Been Printed.

Washington, Oct. 4.—The printing of the new postal saving stamps has been completed at the bureau of engraving and printing. The stamps are in the vault, where they will remain until the postoffice authorities call for them. Five million of the stamps have been turned out, each of which is to be sold at 10 cents. Cards large enough to hold nine of the stamps will be sold at 10 cents each, thereby making a card with the nine stamps thereon worth $1. As it is desired to get the stamps out as soon as possible, they will probably make their appearance in the early fall.

The new 2-cent stamp, which is to be placed as frank on letters of official business with the postal savings banks, has also been printed. It is said these two new stamps are by far the most artistic stamps which have ever been printed.

TWO KILLED IN STREET DUEL.

Constable and Private Policeman Riddle Each Other With Bullets.

Corbin, Ky., Oct. 4.—With both of their revolvers emptied and each man's body literally riddled by bullets, Henry Lee, a constable, and James Williams, a private policeman, fell dead in each other's arms at the end of a shooting affray in this city late yesterday. The men met, and before either had spoken a word, began firing. Neither man missed a shot, Williams' body being pierced by six bullets and Lee's by four.

Lee had shot and seriously wounded Williams' father and brother several weeks ago. Williams was formerly county sheriff.

WANTS HIS OLD COMRADES TO READ THIS.

S. C. Murphy, Fort Wayne, Ind., a veteran of the civil war, desires his old comrades to know the contents of this letter. "For three or four years I have suffered from kidney trouble. My back ached severely and I had to get up frequently at night and was very dizzy upon arising in the morning. The black spots before my eyes made me imagine they were flies. I was recommended to try Foley Kidney Pills and the results were immediate. The pain left my back, I had no more dizziness, my kidney action was normal and I attribute my cure to the sole use of Foley Kidney Pills." Dreier Bros.

NOT GUILTY, WENDLING PLEA.

Alma Kellner's Alleged Slayer Asks Transfer to Federal Court.

Louisville, Ky., Oct. 4.—Attorneys for Joseph Wendling, charged with the murder of Alma Kellner at St. John's Catholic church here on Dec. 8, 1909, who was arrested in San Francisco two months ago, today entered a plea of not guilty when their client was presented in the criminal court. A petition also was filed asking the transfer of the case for trial in the federal court on the ground that Wendling is an alien and entitled to trial before a jury, six of whom must be his own countrymen. Judge Gregory will pass on the petition later.

RAILROAD INCREASES WAGES.

Advance Will Cost Southern Line About $300,000 Yearly.

Atlanta, Ga., Oct. 4.—Announcement of a general increase in wages of the Nashville, Chattanooga & St. Louis railroad employes was made here yesterday by J. L. McCollum, superintendent of the Western & Atlantic railroad, which is under lease to the Nashville, Chattanooga & St. Louis. He said that the increase is effective from Sept. 1 and that, added to an increase by the same road on July 1, it swells the pay roll about $300,000 yearly.

SENSATIONAL INQUIRY NEAR.

Federal Architect's Office, Which Handles Millions, Attacked.

Washington, Oct. 4.—As the result of charges against C. T. Kemper, chief executive officer of the supervising architect's office of the treasury department, by J. Knox Taylor, the supervising architect, the nature of which has been kept secret, there is likely to be a sensational investigation of this branch of the government service. C. D. Hilles, assistant secretary of the treasury, announced yesterday that he proposed to inquire into Mr. Taylor's charges. He did not know how extensive the investigation would be. This office spends millions of dollars each year in the construction of government buildings.

All of the money authorized in the public buildings bills is disbursed under the direction of the supervising architect and his subordinates. It is known that Mr. Kemper has filed an answer to the charges of his superior and that Mr. Hilles proposes to hear witnesses on both sides.

Mr. Taylor has been supervising architect for about twelve years and under his supervision close to half a billion dollars has been expended.

LIQUOR INCOME INCREASES.

Internal Revenue Collections Show Growth for September.

Indianapolis, Oct. 4.—The September report of the Indianapolis internal revenue office shows the total collections on liquor were $919,958.41, an increase of $104,030.21 over September, 1909. The county local option law did little to lower the output of liquor in the state, according to revenue officials, because much of the state's products are used outside Indiana. The collections on whisky, from distillers, amounted to $832,413.56; on beer, $58,110, and on cigars, $20,706.09. A special tax on wholesalers and retailers amounted to $5,187.42. The total receipts for the quarter ending with September at the local office were $2,466,099.44.

THE SENATORSHIP.

Governor Marshall counsels every republican and every democrat in Indiana to obtain from his candidates for the legislature a pledge that according as his politics may be he will vote for Mr. Kern or Mr. Beveridge for the United States senate. Governor Marshall does well to urge this just now. He says it is bruited about here and there that in the event of a republican legislative majority the endorsement of the republican state convention will be ignored or repudiated and of a democratic majority the nomination of Mr. Kern by the democratic state convention will not have binding power.

In his opening speech of the campaign at Indianapolis Governor Marshall gives conspicuous importance to his views upon this phase of the political contest now in progress and he declared unfit to hold a seat in the Indiana general assembly any legislator who would betray his party by violating the covenant it had made with the people.

Some day the people of the United States will elect their national senators by direct vote. Until such time as a constitutional change shall provide for such procedure an indication to the legislatures by direct primaries or by delegate conventions the party choice for senator is the closest to a popular election that can be made. The republican convention endorsed Mr. Beveridge and pledged the people that if given a majority in the legislature he should be re-elected. After a bitter contest Governor Marshall led the way to nomination by the last democratic state convention of a senatorial candidate and Mr. Kern was voted for by a great majority of the delegates and he is the candidate the party has promised the people shall be made senator if the democracy is entrusted with power in the legislature.

Governor Marshall does well to urge all democrats and all republicans to exact pledge from their legislative candidates on this point. It will do no harm, even if gossip be wholly idle, to take some hostage for performance of a popular duty.

LOS ANGELES REWARDS.

Rewards aggregating $100,000 now are posted for the capture and conviction of the criminals who destroyed the building and plant of the Los Angeles Times and killed a score of its employes. It must be the hope of all right-minded people that the perpetrators of the outrage will be speedily found and promptly punished, but it must at the same time appear to thoughtful common sense that a reward of such magnitude may rather defeat than serve the ends of justice. It is a vast sum and may easily excite the cupidity of the unscrupulous. That there are men who would not hesitate for such a prize to convict the innocent by elaborate structures of subornation and perjury is well known. It has been attempted many times and in some instances doubtless has succeeded. Moreover, a reward of proportions so tempting will lure hundreds of amateur detectives and cranks of various sorts into pursuit of the malefactors with a resulting confusion to real detectives and diligent officers, not to speak of the embarrassments and outrages to which many innocent will be subjected by the incapable. While the Times company, the city of Los Angeles, the business associations and people generally feel that neither efforts nor money should be spared to uncover the guilty and fitly punish them for this wholesale murder, the holding out of a reward of $100,000 is more likely than otherwise to protect the dastards and expose the innocent to distress, if not to peril.

WAR OF THE PRESSES.

We have it on the authority of Willyum Ran-dolph Hearst-t-t-t that the Rochester ticket is a distinctly boss-made affair with Charlie Murphy's Tammany brand graved deep, everlasting and damning, and on the authority of the esteemed New York Herald, the equally esteemed New York Post and the not less esteemed New York Times that the convention was an unbossed deliberative body and that its ticket represents and embodies the untrammeled and unawed expression of the democratic masses. All of which seems to indicate and presage that the Honorable Dix is going to realize and appreciate what an abomination he became when four years ago he expressed his civic independence by bolting the thrice potent grand master of the independents, then democratic nominee for governor; also that that fulminating colonel person over Oysterbaywards is not going to be governor of New York by proxy if the individual and combined efforts of three as good mugwump journals as ever splashed ink on paper can do aught to prevent. All things considered, it looks as though the Independent Hearst were due for a field day of revenge and that his esteemed contemporaries will have as much as three able-bodied non-organ journals can do to fill the eastland with the noise of alarm and the shrieks of fright at the conjured prospect of the terror of Sagamore Hill. Viewed from all convenient points, it looks as though Mr. Hearst would have the most fun, if that be what he is in search of.

There seems to be nothing wanting to republican harmony in New York but the assurance that the old guard will keep on guarding for just four weeks more. "After that the dark."

The dynamite outrage in Los Angeles has a little on the Vanderbilt cup race, but not so much when we weigh in the concentration of both energy and victims.

If the king of Denmark could know what certain southern newspapers are going to think and perhaps say of him for having Booker Washington in for dinner at the palace he would doubtless have a strong touch of that withered feeling. However, the king is not Roosevelt and he doesn't have to run for his office.

Maybe the administration is just keeping Mr. Ballinger until next month for the goat.

"Glad 2 C U," is the slogan. Show 'em.

PACIFIC FLEET HOMEWARD.

First Division Sails From Chimbote, Peru, for San Francisco.

San Francisco, Oct. 4.—The first division of the Pacific fleet, consisting of the armored cruisers California, Colorado and Pennsylvania, with Rear Admiral Giles S. Harbor's pennant flying from the mast head of the flagship California, sailed from Chimbote, Peru, yesterday for the home station at San Francisco. The three vessels, with the armored cruiser, Washington, which is on its way to join the Atlantic fleet, participated in Chile's elaborate centennial festivities. The cruisers left Valparaiso on Sept. 23. They will have their regular target practice off the California coast, probably in the vicinity of Santa Barbara.

Shonts, president of the Clover Leaf and Chicago and Alton; Frank Trumbull, chairman of the board of directors of the C. & O.; General Hubbard, railroad capitalist of New York; J. P. Stevens, a brother of President Stevens and superintendent of the Indiana and Kentucky divisions of the C. & O., and other minor officials of the three roads passed through Marion yesterday afternoon en route to Chicago and St. Louis on an inspection tour of their lines.

While here Mr. Hawley expressed himself as very much surprised at the action of Governor Marshall in filing suit against the C. & O. of Indiana, and said that he could not understand why the governor, or any citizen of the state, could not see and feel that it was to the best interest of the state that the old C., C. & L. railroad should be owned and controlled by a strong road like the Chesapeake & Ohio, and that after further investigation of the matter he believed that the suit would surely be withdrawn.

CHILD, BITTEN BY DOG, DIES.

Authorities, After Examination of Animal, Find No Trace of Rabies.

Logansport, Ind., Oct. 4.—Emma, the 4-year-old daughter of Mr. and Mrs. Newton Evans, of Kenneth, died yesterday after suffering since Saturday night from what the physicians declared was hydrophobia, resulting from a dog bite received two months ago. While playing with her dog the little girl was bitten on an arm, and badly lacerated. Dr. J. P. Hetherington was called and suggested that the dog be examined. Mr. Evans killed the animal and its head was sent to the state medical department to be examined. A few days later Dr. Hetherington received a report saying that no evidence of rabies was found. The wound in the child's arm healed and the scar was almost gone when Saturday evening she became ill.

A WICKED BROTHER.

Chanler Names Prize Pig After Prince Dolgorouski.

Richmond, Va., Oct. 4.—John Armstrong Chanler, brother of "Sheriff Bob" Chanler, of New York, and the originator of the query, "Who's loony now?" again came into the spotlight yesterday.

At the Virginia state fair Chanler entered his prize pig, which he has named Prince Dolgorouski, after the Russian nobleman who has played a prominent part as the friend of Cavalieri during the recent publicity concerning the former sheriff and his song-bird wife.

The pig's pen is elaborately bedecked with banners bearing the name of the Russian prince, and great crowds of sightseers gathered about the pen throughout the day. It proved the most amusing feature of the big fair.

LIBELED DIAZ IN A BOOK.

Carlo DeFornaro Is Released From Blackwell's Island.

New York, Oct. 4.—After serving eight months of his sentence of a year, Carlo DeFornaro, convicted of libelling the president of Mexico in a book entitled, "Diaz, the Czar of Mexico," was released from the penitentiary at Blackwell's island yesterday.

Fornaro's return to fellow literary workers was that of a hero. He was first taken to the National Art club as the guest of honor at a luncheon given by the Vagabond club and last night a dinner was given in his honor by a prominent artist. Tonight there will be another dinner given by friends.

Addressing the luncheon party Fornaro said he had written the book with his eyes open and had expected to go to jail for a couple of weeks. He was surprised, however, to get a sentence of a year. The book caused such a stir when it came out that Rafael Espindola was sent here from Mexico by the government to bring suit against the author. Through him the conviction was obtained.

This Removes Dandruff

It is an easy matter to wash the scalp with an ordinary soap—it will do some good, probably cleanse the hair and remove the oil—but will it remove the dandruff?

Some of it may be loosened and combed out but what should be done is this—apply

NYAL'S HIRSUTONE

twice a week for the first week, once a week for two or three weeks, and then only when necessary.

The scalp will be thoroughly cleansed, dandruff removed and bacterial action prevented. The pores of the scalp are opened up and the proper amount of nutriment given to the roots of the hair.

It is not only a cleanser—it is a tonic—a food.

BURN NEGRO FIEND TO STAKE IN ALABAMA

Mob Captures Colored Man from Prison Warden and Lynches Him.

Montgomery, Ala., Oct. 4.—Six hours after he had committed criminal assault upon Mrs. Hiram Stuckey, a prominent young woman of Covington county, Bush Withers, a negro "trusty" at the Henderson convict camp, was taken from the warden last night while enroute to prison at Andalusia, tied to a stake by an infuriated mob of a hundred men and burned.

The lynching was conducted quietly and the mob, formed from adjoining towns, dispersed to their homes leaving no traces of their fury save the ashes of the negro.

The crime for which the negro was lynched was committed early yesterday afternoon when he went to the farm of Mr. Stuckey for the purpose of getting drining water for fellow convicts who were employed at a camp near by. Entering the house, it is declared the negro assaulted Mrs. Stuceky, who was alone, after which he clubbed her into insensibility in an effort to stifle her cries. This morning, it is reported, the woman is in a precarious condition.

Before lapsing into insensibility Mrs. Stuckey informed her rescuers of the assault, naming the "trusty," whom she knew, as the perpetrator of the deed. The negro was caught and hurried to the stockade at Sanford six miles from Andalusia.

Upon hearing rumors of a mob, Warden J. T. Long at 9 o'clock attempted to spirit the convict to the prison at Andalusia, but was intercepted on the outskirts of the village.

GETTING READY FOR WORK.

Boston to Have Two State Conventions Next Thursday.

Boston, Oct. 4.—The machinery for the two simultaneous political conventions here next Thursday is being set up by the republican and democratic state committees, with ease by the former, but some difficulty by the latter.

There is no contest among the republicans for places on the state ticket for convention officers nor for platform planks. With three aspirants for the head of the state ticket, and three others who want the second place, the democratic state committee is having its troubles, although so far there has been a disposition by all candidates to compromise on all disputed points.

James Vahey and the other aspirants for the place at the head of the ticket, Charles S. Hamlin and Congressman Foss, declare themselves as satisfied with the outlook and confident of winning.

A few days ago one of the attendants say the woman swallow a teaspoon. Medical assistance was summoned, but the patient died within a short time. An autopsy yesterday revealed nine spoons, all but one of them bearing the asylum mark.

ROB POSTOFFICE AT ORLAND, GET LITTLE

Thieves Secure Some Pennies and About $30 in Stamps.

Federal officials in Fort Wayne were notified by telephone early today of the robbery of the postoffice at Orland, Steuben county, where thieves forced their way into Uncle Sam's agency Monday night, but secured only some pennies and about $30 in postage stamps for their crime.

Orland is a little village in the extreme northeastern part of Steuben county, and is reached only by an interurban line. Robbers gained an entrance to the office by forcing open the rear door of the building, and the robbery was not discovered until Postmaster Don G. Stuck came down town this morning to open the office for the day's business. The case has been turned over to Inspector J. N. Hunter, of this city.

About a year ago the postoffice at Orland was destroyed by fire.

The robber is believed to have made his escape from the town in an automobile. Late reports indicate that the plunder amounted to about $30 in cash and some $24 in postage stamps.

BEES AGGRAVATE WRECK.

Seventy-five Hives Show Resentment of Collision.

Bruch, Col., Oct. 4.—Seventy-five hives of infuriated bees played an important part in delaying traffic on the Burlington railroad here yesterday, following a collision between two freight trains in which twenty freight cars were destroyed and a large quantity of merchandise damaged.

The bees were in a car of household goods. They kept the wrecking crew at bay for several hours before they were smoked out.

S. O. Nelson, of Upland, Neb., the owner of the bees, who was traveling in the car with his goods, suffered the only injuries resulting from the wreck. He was severely stung before he could make his way out of the car.

IRISH APPEAL TO HITCHCOCK.

Deputation Asks Postmaster General to Renew Queenstown Service.

Washington, Oct. 4.—An all-Irish deputation headed by the lord mayor of Dublin, Michael Doyle, called upon Postmaster General Hitchcock yesterday to protest against the abandoning of Queenstown as a port of call for mail steamers of the Cunard company on their eastward passage from New York. Mr. Hitchcock pointed out that the department had no contractual relations with the Cunard company that would enable him to require the restoration of Queenstown as a port of call. He promised his callers to take up their cause with the company and do what he could.

NEWS OF FORT WAYNE'S NEIGHBORS

DIVISION IS MADE OF LARGE ESTATE

Land and Money Partitioned Among the Heirs of Mrs. Sarah Hardy at Portland.

Portland, Ind., Oct. 4.—Commissioners C. W. McLaughlin, Albert Brunson and John W. Holmes, appointed by Judge LaFollette to partition the real estate left by the late Sarah Hardy among her heirs, have filed their report showing the property set apart in the following manner, the report having been accepted and confirmed by the interested parties:

Fred C. Hardy is to receive 160 acres of land, augmented by the sum of $2,391, of which amount Rose Hardy is to pay $1,800 and Curtis W. Hardy, as guardian of John S. and Foster J. Hardy is to pay the remaining $591. Curtis W. Hardy is to receive a 75 acre tract of land and the sum of $8,561, of which amount Rose Hardy is to pay $2,989, Verona Smith is to receive 289 acres of land, and Rose Hardy 202 acres of land, also the home place in this city; John S. and Foster J. Hardy are to receive 209 acres of land which is set off in one body.

The estate was one of the largest ever partitioned between heirs in this county. Most of the estate consisted of real estate in Jackson and Bear-creek townships, comprising in all 933 acres.

PIPED FROM FORT WAYNE.

Lighting Problem at Montpelier Solved by Use of Artificial Gas.

Montpelier, Ind., Oct. 4.—It is reported that the Indiana Light and Heating company, which is at present supplying Montpelier with natural gas, will ask the city council for a franchise to furnish artificial gas. Should the franchise be given, it is said tanks will be erected near the city and the supply piped in here from Fort Wayne and held in the tanks for reserve.

The artificial gas would come much cheaper than natural, but there would always be an abundant supply of it and the daylight lighting problem would be solved. At present there is no electrical current and in the winter time the natural gas is too weak for good lights. It is probable that should a franchise be asked on the proper terms the people of Montpelier would be in favor of its being granted.

BRIBER IS GIVEN A PRISON TERM

Had Offered Deputy Prosecutor $25 to Dismiss Proceedings in Liquor Case.

Angola, Ind., Oct. 4.—Stephen Leonard, who was charged with having attempted to bribe Deputy Prosecuting Attorney Thomas Wickwire, of Angola, by offering him $25 to dismiss the prosecution against Robert Cameron, a druggist of Fremont, who had been arrested for the illegal sale of liquor, was found guilty by the jury in the circuit court here and will probably be given a sentence of two to twenty-one years in prison. J. E. Pomeroy, of Auburn, presided as judge in the trial of the case.

It seems that Leonard approached Wickwire and asked him if he would dismiss prosecution against Cameron for $25. The deputy prosecutor told him to come later, which Leonard did. The sheriff and a county commissioner were placed in a room where they could see the transaction, and when Leonard produced the change and placed it on the table the man was arrested. The jury which convicted him was only out a few minutes.

IS NOW CONVALESCING.

Wabash, Oct. 4.—Rev. Dr. Charles Little, pastor of the Presbyterian church, who has been seriously ill, is very much improved. At noon, Sunday, he was able to leave his room nad eat dinner with his family for the first time in his illness. His improvement has been very satisfactory and it is expected he will rapidly regain his health.

IS WITHOUT A TEACHER.

Nebraska Man Declines Position—Another Call Extended.

Decatur, Ind., Oct. 4.—A. L. Siving, of Lincoln, Neb., a German Lutheran parochial teacher, to whom was extended the call to serve as teacher at the Bleeke Lutheran church in Union township, has sent word declining to come. The congregation then held another meeting and extended another call, and are anxiously awaiting his answer, trusting that it may prove favorable. The school is so large and the duties of the pastorate so heavy that the pastor, the Rev. Bauer, who has been supplying, is finding that it taxes his time and strength too much and the congregation is anxious to secure a teacher. Christian Gotch, of this city, who taught some time last spring, cannot continue on account of ill health, as he is suffering from lung trouble. The new cottage, which is now being erected by the congregation for their teacher, is nearing completion, and is a model of convenience and beauty.

THE OLD FAMILY HORSE

Perished in the Flames When Barn Was Burned.

Columbia City, Ind., Oct. 4.—Nelson L. Firestone, who resides in the northwest corner of Troy township, on the Kosciusko county line, was the loser of a barn and contents Monday afternoon, when a rain storm swept across the county, and a thunderbolt struck his building, immediately setting it ablaze.

The lightning struck about 1:30 o'clock and the plank structure was a glowing mass of coals in less than twenty minutes, while nothing could be saved from the barn.

It was filled with hay and oats in the bin, while one old family horse was also incinerated in the flames with a number of agricultural implements.

He had no lightning rods on the barn, but had insurance in the Farmers' Mutual company of this county, which will partly make up his loss.

BRILLIANT YOUNG MAN.

Death of Dr. John Evanson, of Columbia City.

Columbia City, Ind., Oct. 4.—The remains of Dr. John Evanson, whose death occurred at Longcliffe, were brought here for burial, being taken to the home of his mother. His death came from an attack of peritonitis, which he had contracted the preceeding day, and his passing was a great shock to the many friends of the young man and the family. He was a man of exceptional ability and training in his profession and but for the failure of his health two years ago was assured of a successful professional career. At the time of his death he was at Longcliffe, seeking to recuperate his health and the attack of peritonitis came so unexpectedly and terminated so suddenly that the relatives in this city were not informed until after his death.

One Big Fool

But He Doesn't Live in Fort Wayne Nor Read The Sentinel.

A man in Connecticut gave a doctor, a specialist in catarrh, $50 to cure him of this common yet most obnoxious disease.

The specialist gave him a bottle of medicine and told him when and how to use it.

The fool took the medicine home, took one dose, put it on a shelf and made no further effort to follow instructions.

Three months later with the medicine still on the shelf he told a friend that the specialist was a fake; that he had paid him $50 and still had catarrh as bad as ever.

This story is told for a purpose. HYOMEI (pronounce it High-o-me) won't cure catarrh if you don't breathe it; it will cure catarrh if you breathe it regularly.

Furthermore, you don't need to give a catarrh specialist $50 to cure you of catarrh, for the specialist is yet to be born who can write a better prescription than HYOMEI.

Meyer Bros. Co. and druggists everywhere guarantee HYOMEI to cure catarrh or money back. A complete outfit, which consists of a bottle of HYOMEI a hard rubber inhaler and simple instructions for use, costs only $1.00. Separate bottles of HYOMEI if afterwards needed cost but 50 cents. If you already own a HYOMEI inhaler you can get a bottle of HYOMEI at Meyer Bros. Co.'s for 50 cents. No stomach dosing—just breathe it.

Little Girl Who Was Bitten by Dog Two Months Ago.

Logansport, Ind., Oct. 4.—Emma, the four-year-old daughter of Mr. and Mrs. Newton Evans, of Kenneth, died yesterday, after suffering since Saturday night from hydrophobia, which resulted from a dog bite received two months ago. Physicians were unable to do anything for the child after she was stricken with the dreaded disease.

While playing with her pet dog two months ago, the little girl was bitten on the arm. The wound in the child's arm had healed and the scar was almost gone, when on Saturday evening she became very ill. Dr. Hetherington was called, and found the child suffering from hydrophobia. He could do nothing for the child but to relieve her suffering.

It will be some months before he will be able to resume his seat on the DeKalb-Steuben circuit court bench.

However, an operation was not found necessary, and she is now at her home at Brighton. Her place in the school room is being taken by Miss Mabel Lovett, of South Milford.

ROBBED HARDWARE STORE.

Decatur, Ind., Oct. 4.—During the night burglars forced entrance to the Laman & Lee hardware store on Monroe street and made away with seventy-five cents from the cash register, three revolvers and a number of penknives. The entrance was forced at the rear of the store. A glass in one of the doors had been broken in and an iron bar forced out, thus letting the burglar have free opportunity to reach down and lift up the floor latch, swinging it clear for his entrance.

Heirs Would Set Aside Deed to Theological Seminary.

Indianapolis, Oct. 4.—A suit to set aside a deed involving property estimated to be worth $130,000, and appealed from the Kosciusko circuit court, has been filed in the supreme court. The appellants are the heirs of the late Elijah Hays, of Warsaw, who deeded his entire property to the Nicholas Lowe Theological institute, Mercedes, Argentina, for the education of young men to the Methodist ministry. The defendants are William F. McDowell and others. The first deed was made in 1902, the record sets out, at the time the grantor was 84 years old, and his "mind was enfeebled by age and disease." The appellants ask to recover the whole of the property, denying the competence of th grantor to make a deed.

WANT IMSPECTOR OF WEIGHTS AND MEASURES

Retail Merchants Submit Idea to Legislative Committee.

Recommendations for the creation of a city inspector of weights and measures, in order to assure uniformity and correctness of weights and measures, were submitted by the Retail Merchants' association at its meeting Monday evening to the legislative committee of that organization for a report at the next meeting of the association. The idea met with high favor at the hands of the merchants, as a protection both to seller and buyer, especially as against the operations of peddlers and other itinerant merchants.

Frank J. Rahe, the new president of the association, was in the chair for the first time, and in a talk he outlined a definite plan of work which has been formulated for the coming year. This will be inaugurated with a campaign for increased membership, and two committees to be named by the president—one to be known as the "Boosters" and the other as the "Boomers"—will start a competitive race to increase the membership of the association.

Endorse Beautification Levy.

Members very generally endorsed the recent tax levy of 4¼ cents on each $100 of assessed valuation for city beautification purposes.

There was much protest against the slow progress of the work of track elevation at Calhoun street, and it was pointed out that the delay is seriously detrimental to business. The secretary of the association was directed to communicate with the city government in the effort to secure more rapid progress.

FREE SAMPLE CURED OLD PERSON'S BOWEL TROUBLE

One of the most remarkable proofs of the unusual laxative merit contained in Dr. Caldwell's Syrup Pepsin is that it is effective not only in people in the prime of life, but at the extremes of ages. As many letters are received from mothers regarding the cures of children, as from men and women of sixty, seventy and eighty years of age. It must be truly a wonderful laxative.

In the cure of constipation and bowel trouble in old people it has no equal. It corrects the constipation, dispels the headache, billiousness, gas, drowsiness after eating, etc. People advancing in years should see to it that their bowels move freely, and if they do not to take Dr. Caldwell's Syrup Pepsin. You can prolong your life by healthy bowel action. Clogged bowels invite disease. Women about to pass the menstrual period cannot do better than use Syrup Pepsin several times a week until the system has settled to its future condition.

Among the strongest supporters of Dr. Caldwell's Syrup Pepsin are Mr. W. G. Zorn of New Decatur, Ala. and Mr. George S. Spaulding of the National Soldiers' Home, Kansas, both elderly men. The regular size bottles can be bought of any druggist at fifty cents and one dollar, but a free sample bottle can be had by sending your address to the doctor.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him Dr. W. B. Caldwell, 541 Caldwell building, Monticello, Ill.

HELEN BOYLE ASKS NEW TRIAL.

Argument Heard in Appeal of Billy Whitla's Alleged Kidnaper.

Philadelphia, Pa., Oct. 4.—Argument was heard in the state superior court today in the appeal for a new trial for Mrs. Helen Boyle, now serving a sentence of twenty-five years for alleged complicity in the kidnaping of little Billy Whitla, of Sharon, Pa. Counsel for Mrs. Boyle contended that the Pennsylvania courts had no jurisdiction in the case and that if the woman did have any hand in the kidnaping she should have been tried by the Ohio courts, in which state the boy was found. Counsel denied that the woman aided and abetted in the kidnaping. District Attorney Liniger, of Mercer county, opposed the appeal.

Leo C. Lorenz, residing at Green and Oliver streets, lost the index finger of his right hand in an explosion Saturday, when he struck a pipe against a fulminating cap which he held in his hand.

Double Heating Base Burners

Are built upon the most advanced principles. The patent flue construction in the base is a factor which places it far in advance of any other make in so far as radiating surface is concerned. No flue strip is used and instead of heat being forced around any sharp turns, it passes easily and freely in an undivided sheet in one direction only, around the concave bottom, thus having a greater draft and better circulation.

Our Base Burners range from **$30.00 to $65.00.** Pay us $5.00 down and $5.00 per month.

CORTRIGHT METAL SHINGLES

They've been made, sold and used in every part of the United States for more than twenty years, and yet no one ever saw an unserviceable roof made of *Cortright Metal Shingles.* Houses that abut the sea and are constantly in contact with the corrosive salt air, have sound *Cortright Metal Shingle* roofs that were laid in 1886; houses far south where dews are heavy as rain and the humidity is always high, after 24 years' wear, have perfect *Cortright Metal Shingle* roofs, tight as the day they were laid. Out in the alkali country where the air is dry as punk, Cortright Metal Shingles, 20-odd years after laying, are as sound as a dollar. In the coldest climate, in the hottest airs, they remain the same.

Fireproof, waterproof, windproof, wearproof—they make the best of all roofs. The first cost is no more than wood shingles, the final cost is less than half—and they permanently retain their artistic appearance.

CAREY BREAKS INTO FAST GOING AT ST LOUIS

Bronco Fielder Makes a Grand Start With the Pirates.

Maximillian Carnarius, alias "Scoops' Carey, broke into high base ball society as a member of Fred Clarke's Buccaneers at St. Louis yesterday and gave most of the show. His record for his debut was two runs, a triple and a single, six put outs and one assist.

A month ago, this same fellow was playing base ball in the Central league for $80 a month. He probably got enough out of the money paid for him by Pittsburg to raise his salary to a pretty respectable figure, but he wanted to make a little vacation money when he went to Eddie Wheeler for a job and took what was offered him and was glad to get it.

He was batting against a recruit that Roger Bresnahan considers his best bet, and the showing he made was remarkable for a youngster.

His rise in the base ball world illustrates a bit of the luck of the game. Carey was at school in St. Louis until late in the summer and he came to Fort Wayne looking for a job in base ball. He applied to Mart Cleary and was advised to see Jimmy Burke, as Patterson was going badly at the time and Fort Wayne needed a left fielder.

For some reason or other he didn't do it. As a matter of fact he was timid and after waiting around Fort Wayne three or four days he went to South Bend and struck the town just at a time when Eddie Wheeler was badly crippled by the absence of Ben Koehler, who was out of the game with a bad ankle.

Wheeler gave him a place temporarily and sent him to third base and the Broncho leader shifted himself to second. The recruit showed great promise and when Koehler recovered he was sent to the outfield and kept there on account of his fine work.

Just who looked him over for the Pittsburg team is not known, but he was sold through the office of Dr. F. R. Carson, president of the league, and with McCarthy brought the club $4,000. It was not believed he would be asked to report, but he lives at St. Louis and yesterday was his chance to break in.

If he had applied to Jimmy Burke instead of Eddie Wheeler he would have gotten a job, because a man was being sought to take Patterson's place and it would have cost nothing to give him a trial. He is well known here as he was one of the leaders in all the athletics at Concordia college. Hans Wagner was shifted to first and Bill McKechnie went to short while Manager Fred Clarke gave up his place in the outfield to his recruit.

AUTO SPEED TEST IS FATAL.

Illinois Man Killed and Demonstrator Injured in a Wreck.

Galesburg, Ill., Oct. 4.—Joe Cox, a retired farmer of Oneida, was killed and Adolph Munson, 62 Oak street, Chicago, seriously injured in Oneida yesterday when a racing auto driven by Munson struck a grade crossing at a speed of sixty miles an hour and collided with a stone bridge.

San Jose, Cal., Oct. 4.—Dr. George F. Witter, a physician of this city, was knocked down and killed in front of his home here by an automobile driven by William Johnston, the young son of a local attorney.

A GENEROUS AND CHARITABLE WISH.

"I wish all might know of the benefit I received from your Foley's Kidney Remedy," says I. N. Regan, Farmer, Mo. His kidneys and bladder gave him so much pain, misery and annoyance he could not work, nor sleep. He says Foley's Kidney Remedy completely cured him. Dreier Bros.

Sporting News in Tablets

In an interview about the season in the Western league President Tip O'Neil says among other things that the Denver club under Jack Hendricks put up a game fight for the pennant. He says the 168-game schedule was a success.

Willie Mitchell, of the Naps, who has won eight straight games, will be the greatest southpaw in the business next season, if the Cleveland hopefuls blossom into a first division team. No less a personage than Eddie Collins, the wonderful second baseman of the pennant winning Athletics, says that Mitchell has a better assortment of foolers than any other southpaw he has ever faced, and Eddie being a left-handed batter, has stacked up against about every offside flinger in the league.

A minor league manager wired Fred Clarke, of Pittsburg: "Send us a team of substitutes to play an exhibition game." In an angry mood Clarke wired: "Will not be a party to any scheme to fool the public."

Pitcher Bill James of the Toledo team is the sensation of the closing days of the American association. He came from "Bo" Shaw's Jackson club of the Southern Michigan league and won every game that he pitched for the Toledo team—six in all. He is now touted as fit material for the big leagues.

In the Terre Haute Tribune's voting contest started for the selection of a manager for next season Eddie Wheeler is leading with seven backers.

Billy Cristall, Larry Lejeune, Dick Grefe and Jimmy Wacker are members of a barnstorming club that is playing in Kentucky and Southern Indiana is post season games.

It is current now that Charlie Carr quit the Indianapolis team to help D. A. Fletcher in the organization of his proposed new league.

Catcher Fred Abbott and Harry Hinchman, manager of the Toledo club, have purchased a bowling alley in Cleveland and both men will remain in the Forest City until next spring.

Snodgrass of the Giants, who has fallen down in his hitting the last few weeks, is said to have dropped in his stick work because of the criticism which has been heaped upon him for slumping. He is too young in the business to stand that kind of treatment.

Clarke Griffith was reading aloud from a magazine the other day where baseball was discovered by the Egyptians 4,500 years ago, and that the first world's series was played between the teams of Cairo and Memphis. "I don't see how that could be," said Larry McLean, the tall catcher of the Reds. "Cairo is in the Kitty league and Memphis is in the Southern association."

Mike Kelly, who was once the bone of contention between the American association and the national commission, has made a grand showing with the St. Paul team this year.

Pat Newman, the Texas leaguer who was tried out by Manager Jack O'Connor of the St. Louis Browns and found wanting, went back to his home in Texas and told the neighbors he was sore at the St. Louis manager and would refuse to play there again.

CENTRAL LEAGUE TO HAVE A PLAYER IN SERIES

Paddy Livingston Lone Representative of the Central League.

Just one man who has ever worn a Central league uniform will be in the world's series this season and he never played in Fort Wayne. The man is Paddy Livingston, one of the catchers of the Athletics, who was once a member of the Wheeling club.

He was called to his home in Cleveland during the only series of games that Wheeling played here when he was on the roster. A look at the roster of eligibles will not excite interest in the performance of any one man but Charlie Rigler, one of the umpires from the National league will attract attention here as he first became an umpire in a game on the Fort Wayne lot.

He came here from North Vernon, O., unheralded and made a good impression. He went along for less than two seasons in the Central league and jumped to the big show where he has stuck. He stated after the game that he had never before umpired a professional ball game.

"Topsy Hartzell, of the Athletics, played at one time on one of the clubs of the Interstate league of which Fort Wayne was a member. The national commission has given out the following details in addition to the dates published yesterday:

NORTH WIND YEARNS FOR A CHANCE IN BIG SHOW

Comiskey Will Try an Indian Out—American Scores.

Bill Chouneau, meaning North Wind in the Turtle Indian tribe of which he is a member in good standing, is practicing pitching in Charles Comiskey's palatial base ball barricade and the Old Roman will start him in one of the four games that remain of the American league season at Chicago.

Mr. N. Wind is an undersized aborigine picked up on the Red River circuit and is an out and out Indian who can't understand enough English to be rattled by a coacher. The White Sox staff has been cut down to four members for the windup and the Indian will be worked to see what he has to entitle him to a place on the regulars next season.

In the American league clashing yesterday Boston and the champs were hooked in a loose bit of loose pastiming that went to swell the record of Connie Mack's Athletics at the expense of Pitcher Hall. Dygert was on the mound for the leaders and in the second round the speeders landed four tallies for a lead that looked good but Hall went to the bad in the fourth when some hits and a bit of bad fielding gave Philadelphia five runs and the game.

In disposing of the Highlanders Walter Johnson added four to his strike-out record and let the Hall Chase aggregation down with five hits. Vaughn, Caldwell and Hughes were sent into the fray with the hope of steeming the defeat but Johnson was tight when hits meant runs and got away with a shutout. The scores:

MAGNOLIAS ARE OFF WITH A CLEAN SWEEP

Take the Wolf and Dessauer Five Down Line in Opener.

H. C. Heine, coal baron and doughty captain of the Magnolias, got his five off to a good start in the opening games of the First Brunswick league last night by tripping the Wolf and Dessauer club three straight and by doubling with Dickmeyer in a two century stretch in the first game, his club got a very creditable early-season total. He was also the best average performer, although Eddie Sander gave him a chase.

Harry Jackson topped the losers with 223 for his start but he fell down in his second game and lost the average to George Jackson who got a bad start, held out in the second, finishing with 218 in the final round. Knipple had the best average for three games.

PRINTERS SLIP TWO GAMES OVER ON DRUGGISTS

Get Bad Start But Are Strong in the Closing Combats.

The Fort Wayne Printing company got away to slow music in the first game of the struggle with Meyer Brothers' and dropped the first game by fifty pins but gingered up in the second and third and with a couple of good totals took the series, two to three.

None of the second leaguers hit the double century mark and Agne took the high score of the combat with 194 while Franke led the druggists with 176. He also got the average for the losers and Schwartz was the best for his club. The scores:

ZIMMERMAN GOT A GOOD START IN NEW JOB

Two Home Runs and a Triple for Evers' Understudy.

Heine Zimmerman, by virtue of one fractured leg, substitute for Johnny Evers in the Cub line-up and selected to supply the place of the brainy Trojan shoe merchant in the world's series, got intimate with Mr. Suggs' shoots in the game at Cincinnati yesterday and poled two home runs and a triple during the final matinee. At last accounts two of the balls he hit are going yet as both went over the stockade and made records for long drives at the Redland lot.

Suggs was very effective, however, against the others of the Chance clan and seven hits for three runs, counting the two homers, were all that were annoxed. Weaver pitched for the new champs and was pounded freely, Phelan, who is playing Bob Bescher's field, got three hits.

Earl Moore breezed a dozen dodgers in the Philadelphia-Brooklyn go and registered a shut-out as he was hit only four times. There was no use to derrick Bell, who pitched the whole game, because he was beaten to a pulp in the opening round and there was no chance after that for Brooklyn to win.

AGED MAN LOSES INSURANCE.

Trades Paidup Policy for Property Without Obtaining Deed.

Anderson, Ind., Oct. 4.—Benj. F. Jefferson, an aged resident of Elwood, was here today trying to locate a deed which he thought had been made to him for a house and lot in Elwood. He said that more than a year ago through a real estate agent whose name he did not know he traded a paid up life insurance policy worth $1,080 for the property, owned by a man named Stanley. He said Stanley wished to keep possession of the property until spring and then refused to give possession. An examination of the recorder's records shows that the property had never been transferred.

Men All Like Connie Mack

Connie Mack has a method of handling players that cannot help but be successful. He never tries to bulldoze a player, as many managers do. He treats the men under him with the utmost consideration and gets their best will. He then reasons with them and tells them what to do under certain conditions. This treatment works better with some players than with others at the start, but after finding out there is no way to take advantage of the wise old head the players soon learn to love and respect him and to do as he wants them to.

Connie once said about the way he handled Rube Waddell—probably the hardest man that any manager ever had on his team. "I do not have to worry about the Rube when he is going bad," said Connie. "It is when he is winning that I have to watch him closely." Few men would have thought it was necessary to watch a player that was winning would they?

Waddell was careful to show himself around the hotel early every evening when he was losing his games, but when he was winning them he might not put in an appearance for a couple of days if he thought he was strong enough with the boss.

Waddell always wanted money when he won. He never dared to ask for an advance when he lost, but when he won a game Connie always expected him to call at the office to get $10 or $20, and Connie was always ready. He always had a $2 bill stowed away in his change pocket and that was all that he ever had and that is all Rube ever got when he made his touch. Connie always came through with something and always held the respect of the player.

Mack is one of the cleanest men in the game. He has no bad habits. He does not smoke, chew, or swear—out loud. He has a family of three children. Two sons and a daughter were left motherless some nineteen years ago, and he has had to bring them up.

The report is going the rounds that he is soon to wed again—as soon as the world's series is over—and the young lady will get a model husband, there is not much doubt.

GOVERNOR GETS INTO THE FIGHT

Makes His First Speech of the Campaign in Indianapolis.

THERE SHOULD BE PLEDGES FOR KERN

Likewise Beveridge That a Popular Result May Be Vouchsafed.

Indianapolis, Oct. 4.—In an address to the democrats of Indiana, which dealt chiefly with questions of state interest and touched upon national topics only in their relations affecting the present campaign, Governor Thomas R. Marshall formally opened the democratic campaign in Marion county at Tomlinson hall last night.

Although it was the first political speech of Governor Marshall in the campaign, it was not delivered as a "keynote," the governor having made it plain that he desired to speak only as a democrat and not as a leader blazing a political trail for others to follow.

Upon one point, however, the governor insisted that his party follow his advice, and that was in demanding that the legislature to be elected stick to their pledges on the senatorship.

"Justice, fair play and a decent regard for the rights of the individual voter demand that if the next general assembly be democratic, the Hon. John W. Kern be elected United States senator, and if it be republican, that the Hon. Albert J. Beveridge be elected," declared Governor Marshall early in his address. After advising the voters of Indiana to demand of the legislative candidate an unqualified declaration upon the choice of a United States senator, Governor Marshall said: "I propose to obtain answers from the democratic candidates in Marion county, and I recommend that every voter in Indiana obtain answers from his candidates."

This declaration of the governor was given vigorous applause.

Preceding the speech, the governor was escorted by a parade participated in by the Indiana Democratic club, the German-American Democratic club and the Tenth Ward Democratic club from the Indiana Democratic club on Monument Place to the hall. About 500 men marched in the escort, headed by a band.

As the marchers proceeded toward the hall a cannon and fire works were fired in the court house yard.

Introduced by Dougherty.

Ernest T. Brown, county chairman, called the meeting to order and turned the gavel over to Hugh Dougherty, president of the Marion Trust company, permanent chairman of the meeting.

Seventy-five vice presidents, including the county candidates and other prominent local democrats, sat upon the stage. The candidates on the state ticket sat in one box and their wives in another. An unusually large number of ladies were present.

In introducing the governor, Mr. Dougherty said that he had seen by the public prints that he had been chosen chairman of the meeting because of the friendship between himself and Governor Marshall. He wanted no greater honor, he said, than to be classed as the governor's friend.

He said Senator Beveridge had supported the postal savings law and blamed the senator for this.

One reason for the passage of this law, he said, was stated to be that it provided a place for the workingman to place his earnings. He thought that the banks and trust companies afforded sufficient facilities for the safekeeping of money. He said the postal savings banks would take much money out of circulation, so far as its local use was concerned.

In introducing the governor Mr. Dougherty said that two years ago Governor Marshall said he was one of the people and wanted to march side by side with them and do their work. He had made good, the speaker declared.

Governor Given Ovation.

Governor Marshall was cheered long when he arose to speak, most of the men in the hall rising to cheer him. As he arose to read his speech a large bouquet was handed to him and the audience cheered again. The governor brought a laugh and a cheer when he thanked the man who sent the flowers and said bouquets had not always been his lot—that too often he had been presented with cabbages and other vegetables.

During his address he was applauded liberally.

As did Senator Beveridge, speaking from the same stage last Tuesday night, Governor Marshall launched his speech with an appeal to voters as individuals. "I hope they will be patient enough to listen to what every man may have to say in this campaign, and then have courage enough not to follow a leader blindly, but to follow principles and men when they appeal to their judgment and conscience," the governor said.

Governor Marshall's Speech.

"This is said to be a fight between the people and the powers of pillage," said Governor Marshall. "Well, we democrats of Indiana have been warning our democratic brethren who have been voting the republican ticket for more than twenty years that this was so. May I be permitted to inquire who are the powers of pillage? Are they the men who make a schedule, or are they the men who formulate a principle that permits that kind of a schedule?

"I am not ready to charge the republican party with being the powers of pillage in this country. I am, however, ready to charge that its doctrine of protection has been the germinating power of pillage. It is a party which is wrong in its economic theory and it is the principle which constitutes, to my mind, the powers of pillage and not the men. All republican leaders are agreed upon the principle. They simply differ upon the extent of its application. It is the principle which has brought into being the evil and while the principle remains, the evil will remain.

"I shall not make against the party as a party the charge which its own members have made against it. It is a party of pillage by the statement of its own members and its own representatives in the greatest deliberative body in the world. It is a party of pillage according to their charge, not because it stands for the protective theory but because certain guardsmen were unable to accomplish their purposes in regard to certain schedules which went into the Payne-Aldrich bill. The gentlemen who make these charges are on a par with the man who told William Jennings Bryan that he believed in teetotalism if it was not carried too far. Upon the great economic questions men may be misled and yet all be honest, but upon mere schedules, it seems to be a case of whose ox is gored."

Touches on Option Issue.

Governor Marshall reiterated the belief of the democratic party in local self-government. "It insists," said he, "that it is a doctrine which finds its source and origin in the nature of mankind and which cannot be changed by statutory law without producing friction and disregard of law." The governor said that men of one opinion, men whose likes and desires and beliefs ran along common lines, naturally banded in communities. "Men come together," he said, "under the workings of a natural law and locally, they desire to manage their own affairs.

"Therefore, because I believe in the doctrine of local self-government and because I believe that the modes and customs of life of various communities should be settled by the people of those communities, and that a law which arises above the moral sentiment of a community and which is seen forced upon that community by outside influences, cannot be enforced, I advocate the adoption of the democratic declaration upon the question of the regulation and sale of intoxicating liquors. I am not for this declaration because I am in favor of saloons, nor am I in favor of it because I am directly or indirectly under obligations to any one engaged in the manufacture or sale of intoxicating liquors. I shall resent any effort of any interest in Indiana at any time to attempt to control the democratic party of Indiana.

Cannot Make Men Moral by Law.

"It is sufficient for me to satisfy myself as to a principle of government. I stand, therefore, for the democratic platform for the reason that until some way shall be devised among men other than the preaching of regeneration by the gospel of the Nazarene, I do not believe it is possible to enforce a law which is opposed to the sentiment of a community and I do believe it is far better to submit this question to the units of government and to regulate the sale of liquor where they will have liquor, than it is to prohibit and make of our citizens, lawbreakers, and what is worse than lawbreakers, citizens who have no interest and refuse to take any interest in the enforcement of the law. If men could be made wise and good and sober and industrious by law, then, I should be for that kind of a law. But as a people settle together to satisfy their own likes and dislikes, so have they a right to determine themselves how their personal habits shall be regulated.

"From time to time I hear that the republican party is congratulating itself that it is the temperance party of the state of Indiana, and that it stands for county option. Well, I have never objected to the republican party standing for anything for which it wished to stand, but I shall most assuredly object to its pretending to stand for things for which it does not stand. In its recent state convention it pointed with pride to a large number of things which it claimed to have done and which it said were worthy of the admiration of the people of Indiana. County option is conspicuous by its absence. It was omitted because it was thought to be a dangerous question and because the omission was to be used as trading stock so that the party could declare itself to be wet in wet neighborhoods and dry in dry neighborhoods, and thus fulfill the requirements that the real issue of this campaign is the republican party.

Republicans Playing Double Game.

"I think I am not unfair when I say to the voters of Indiana that they may well be careful on this question and see that they are not deprived of every option whatever by mere political trickery. The history of the republican party in Indiana is not so unblemished as to warrant it in saying that upon divers and sundry occasions it has not winked the other eye at the so-called liquor interests. I know that under that platform the option law can be repealed. I know that it has one judge on the supreme bench who declared the law to be unconstitutional, and another judge, a candidate for re-election, who also declares the law to be unconstitutional. How its second candidate, who, if elected, will make a third republican judge, may stand upon this question, I do not know. I do know that the democratic platform proposes to give to the people of this state an option law which will be so clearly constitutional that no court will ever attempt to interfere with it.

"The time for a party to make its pledges is when it makes its platform, and when a party omits from its platform anything of interest to the voters of the state, it is well known that it is simply to gain trading stock. Therefore, the people of this state ought not to be beguiled by any statements from the republicans upon this question. They stand a chance under the republican platform of being totally deprived of option. Under the democratic platform the right to local self-government will be preserved and the solution of the liquor question will be found. Liquor will be abolished from every neighborhood in which the people want it abolished, the law will there be inforced, and we will not find ourselves the owners and possessors of two hundred and fifty literary and social clubs which discuss nothing except the brand of beer and whisky found in their libraries."

Governor Marshall recalled the fact that two years ago he asserted that 80 per cent of the voters of Indiana were democrats as democracy is understood in this state—voters objecting to usurpations by executives, by courts and by legislatures; voters who plant themselves upon "the God-given right to work out their own salvation with fear and trembling, protected in every honest enterprise, unaided and unhindered by legislation."

"Opposed to this 80 per cent.," said the governor, "are men who think that God made some to rule and others to obey, some to hold property and others to be dependent upon their bounty; who believe in a strong centralized government, in the appointment of stewards of public affairs and of trustees under God; who stand for the few as against the many; who believe in a partnership between the government and their private affairs. Some of them would welcome a reduction in this and that schedule of the tariff bill, but all uphold the doctrine that it is a part of the business of government to foster and maintain private business enterprises. They are known as standpatter and insurgent.

"The standpatter believes that the American people should be content to scratch where the tariff evil has broken out, while the insurgent believes in allaying the itch, but leaving the virus in the blood to break out somewhere else for the people to scratch. The Indiana democrat holds that insurgency is an admission that the economic theory of protection in vogue in this country is responsible for the ills of which we now complain. The insurgent insists that it is wise to keep the theory alive and to seek to induce the people to believe that the evils will in some mysterious manner be corrected. The democrat contends that the only way is to destroy it and adopt a different theory."

Governor Marshall referred to reports now current that the endorsements of the democratic and republican contentions as to candidates for United States senator are not binding. If this action is not binding, he said, a pledge is. He therefore advised every voter to demand of his legislative candidates an answer to the question. "Will you, if elected, vote for Mr. Kern?" Or "Will you, if elected, vote for Mr. Beveridge?" Justice and fair play, he said, demand the election of Mr. Kern if the legislature is democratic and the election of Mr. Beveridge if it be republican. He said he would ask the Marion county legislative candidates to answer this question.

The Tariff.

"A senatorship being at stake in this campaign," said the governor, "it is necessary to refer to national affairs. Hitherto, in Indiana, we democrats have been confronted by a party whose leaders were united and were battling for the attainment of definite ends about which they were all agreed. It is not now so. One faction of leaders declares that all is well with the world; another cries that the powers of pillage are raging among the people like a mad dog, but that unlike the ordinary mad dog, the danger is not in the head which barks protection, but in the length of the woolen schedule tail; and that all would be well if only a half an inch or so of the tail were cut off. The democratic party of Indiana has for many years been contending that the powers of pillage were beguiling good democrats into voting the republican ticket and it also wants to amputate this tail, but it recommends amputation just behind the ears. Hydrophobia comes from a head bite, not from a tail wag."

Attention was called to the profusion and confusion of republican platforms in Indiana with reference to the state and district platforms. "Placed side by side," said the governor, "they produce such utter confusion that the voter has only one chance in fourteen to guess right.

"In this condition of affairs, the democratic party cannot assault the tariff plank of its opponents. It does not know whether it is to fight the platform of the state convention or the platforms of the congressional conventions. It cannot tell whether their battle is to be waged for Senator Beveridge and the eleven democratic congressmen who voted against the Payne-Aldrich bill before he did, or whether it is to be waged for Representatives Crumpacker and Barnard and against Senator Beveridge. But, this matters not, as democracy will now, as always, fight the old principle of protection."

Commission Idea Confession of Weakness.

"The tariff commission idea," said Governor Marshall, "is a sorry admission of the incompetency of a great party to handle public questions." The republican party knows so little about its own bill that it must appoint a customs court to interpret it, is another of his tariff conclusions. Ship subsidy and opposition to an income tax were pointed out as further indications of the republican party's inclination to favor a few at the expense of the many.

Governor Marshall called attention to national extravagance and spoke of conditions in Indiana.

"I believe that the people of this state are willing to pay taxes to economically administer the affairs of government. But I do not think that the people want to run in debt unless it is a matter of imperative necessity and I am quite sure that they do not want their taxes increased.

"The democratic party in Indiana stands for sane economy; it stands for every necessary appropriation, but it is opposed to luxury for luxury's sake."

Governor Marshall deplored the "constant construction of the law to enable officials to draw more than their salaries," and referred in complimentary terms to the work of the state board of accounts. The watering of stocks and bonds in Indiana was mentioned, illustrated by a recent suit which he caused to be brought, in which 200 miles of railroad was graced with a mortgage of $40,000,000. An amendment to the corporation law, requiring dollar for dollar in every incorporation was suggested and it was recalled that when he urged this amendment previously, a divided legislature did not heed.

On the subject of law enforcement the governor recalled a former request that the legislature give him permission to remove officers who failed to do their duty. It was his desire, he said, to have only the power to determine whether an official was failing in his duty, and that upon that officer's removal the evidence would be certified to the supreme court for determination.

He said that his request was regarded then as a request for more power, political in its nature, but that it was in the interests of good government as he hoped the people would now believe. He referred to the election frauds in the cases of illegal naturalization for voting purposes of foreigners. "The democratic party proposes," he said, "if entrusted with further power, to take this question up and see that every man who has a right to vote shall vote and that every man not entitled to vote shall not vote."

Employers' liability was discussed and the work of John W. Kern in securing the passage of such a law in Indiana was mentioned.

"Its passage was secured by John W. Kern," said the governor, "and it was of inestimable value to the laboring men of the state until it was completely emasculated by the present republican supreme court." It was suggested as both just and economic that the ancient doctrine of contributory negligence and assumed risk be abolished and that a definite sum be fixed which shall be paid upon death or disability. "A law upon this question," said he, "is pledged by the democratic party and, when prudently crystallized, it will lessen litigation, lessen the expense of corporations, increase the care with which they are managed, conserve human life and be of benefit to everyone."

Governor Marshall mentioned the fact that the child labor law introduced in congress several years ago is no nearer now to its passage than when it was introduced. He recalled the fact that the first bill on this subject in Indiana was secured by the power and influence of John W. Kern.

The consolidation of the state labor commission with the office of factory inspector, and the consequent establishment of a department of labor vested with ample power to accomplish the preservation of life and limb was advocated.

In concluding, the governor said:

"I do not know that my conduct of the office which the people of this state conferred upon me two years ago has been so satisfactory as to meet with the approval of a majority of the people. I do know that even if it has, that fact does not warrant me in asking anything for myself. If my administration has been satisfactory, then, with the knowledge which I possess of the character, ability and integrity of the candidates upon the democratic state ticket, I am warranated in assuring the voters of this state that their election to the several offices for which they are candidates will result in giving to the people as good if not better service than I have rendered."

STOMACH AT FAULT

Indications of Disturbed Digestion Are Often Mistaken for Other Disorders and Cause Unnecessary Alarm.

Palpitation of the heart does not imply that the vital organ is diseased.

Pain in the back does not necessarily mean kidney disease.

Headache does not often indicate that there is anything wrong with your head.

All of these symptoms are caused by stomach trouble and when this is righted the alarming symptoms disappear. If you have them look to the condition of your stomach for the cause before you start to treat the symptoms rather than the disease.

If the sufferer from any form of stomach trouble is pale and the blood thin, the first step toward restoring the activity of the stomach is to improve the condition of the blood. A supply of rich, well-oxygenated blood is necessary to the processes of digestion and with it, if errors in diet are avoided, nature will work a cure. This is known as the tonic treatment for indigestion and is illustrated by the experience of Mrs. C. L. Ritchey, of No. 1401 26th street, Rock Island, Ill., who owes her recovery from stomach trouble to a thorough trial of Dr. Williams' Pink Pills. She says:

"I was sick for several months with stomach trouble and nervousness. I had no appetite and what I ate pained me and formed gas. Later I had palpitation of the heart. It was almost impossible for me to get any sleep, I became run down, weak, despondent and discouraged and could not bear to have any noise around me.

"At first I thought the doctor was helping me but I really became no better. When I heard of Dr. Williams' Pink Pills I made up my mind to give them a trial. It was only a short time before I began to feel better, had a good appetite, could rest well and I was cured after taking only a few boxes. I always depend upon Dr. Williams' Pink Pills and recommend them heartily."

The tonic treatment with Dr. Williams' Pink Pills by building up the blood so that it can nourish and strengthen the weakened digestive system has made hundreds of cures in the most severe stomach disorders. A new edition of the booklet, "What to Eat and How to Eat," is free on request. Send a postal for it.

Dr. Williams' Pink Pills are sold by all druggists, or sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for $2.50 by the Dr. Williams Medicine Company, Schenectady, N. Y.

BLENDING MILLS FOR ENGLAND

Gauntt Co. Preparing to Send 19 Machines Over the Sea.

HOMESEEKERS LEAVE FOR WEST

Rain Stops Track Elevation Work—Shop and Rail News.

Some time during the present week nineteen machines for mixing and blending mill products will leave the factory of the F. G. Gauntt Manufacturing company, on Pearl street, for New York to be exported to England. The Gauntt company has made numerous shipments of their factory products to the old country, but the shipment this week will be the largest on a single order to England. Mr. Gauntt has just returned from the southern states with a number of orders for blending machines and John W. Thompson, who returned from the east a few days ago, also brought good orders with him. The manager of the plant said this morning that orders sufficient to keep it going at full capacity the balance of the year were on hand.

EACH HAD A FOOT HURT.

Two Pennsylvania Employes in Peculiar Accident.

O. Edwards and O. Groves, of the Pennsylvania boiler shop, each had a foot injured at 2:30 o'clock yesterday afternoon in a most peculiar manner. They were taking a mud ring, which weighs upwards of 2,000 pounds, from the erecting shop to the blacksmith shop, using for the purpose a hand wagon. The mud ring is about ten feet long and to carry it on the small wagon, the men had it resting on a board, which extended over each end of the wagon. This board broke and the mud ring came down on the tongue of the wagon, carrying it to the ground with considerable force. The cross piece on the end of the tongue struck the feet of the men who were pulling the wagon, breaking three toes for Mr. Edwards and bruising the instep and toes of one of the feet for Mr. Groves.

Thieves at Plymouth Get Away With Small Sum.

Capt. H. C. Stoll, of the Pennsylvania police department, received a telegram this morning informing him that the safe in the down town office of the Adams Express company at Plymouth was blown open some time last night and cash to the amount of $28 was taken. A large sum of money had been delivered to the Adams express office early in the afternoon yesterday, but it was placed in the bank. The thief evidently expected to find this money in the express office safe. No arrests have been made.

WILL TEAR OUT BATHHOUSE.

Extensive Improvements Contemplated in Lakeside Park.

The old bathouse in Lakeside at Delta lake will be torn out and the city will not build one to replace it but the park board will entertain a proposition from any person who wants to put up a modern structure on the east or north bank of the lake. The property north of Lake avenue will be improved next season and a lake formed east of the grove in the Forest Park addition. This has been contemplated for some time and a concrete bridge connecting the two lakes may be constructed. In the new lake there will be island and rustic bridges. The new park at Delta lake under the reviving influence of the late rains has become a beautiful spot and the board does not want to mar it with the ramshackle old bathhouse.

The board was notified that the comfort stations will have to be abandoned at Swinney park in the interests of sanitation and an improved station will take their places.

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Oct. 4.—Although trading in wheat was light today prices responded to bullish news showing a decrease in the European visible supply. The lessending of the total was only 160,000 bushels, but made a sharp contrast with an increase of 11,400,000 bus. at the corresponding time a year ago. Stocks of wheat in Chicago were also reported as showing a decrease that to some traders was not without bullish significance. Commission houses were mostly on the buying side, if not holding aloof. The opening was a shade lower to ¼@⅜c higher with December covering the entire range at 96¼c to 96⅝c. In subsequent transactions, there was a reaction to 95⅛@96⅜c. Wet weather and light receipts made corn firm. December started ⅛@¼c to ⅝c higher at 49⅝@49⅞c to 49¾c and then fell back to 49½c.

Oats rose with wheat and corn. December opened ⅛c up at 32⅝c and touched 33c.

Weakness in the hog market induced a similar condition in provisions. First sales were a shade to 7½c off, with the January delivery at $17.40 for pork, $10.48½ to $10.50 for lard and $9.25 for ribs.

STOCKS AND BONDS.

The Day on Wall Street.

New York, Oct. 4.—The opening movement of prices of stocks today was uncertain and irregular and within a very narrow range. Northern Pacific fell ¾ and Minneapolis, St. Paul and Sault Ste Marie advanced ⅝. These were the most conspicuous changes. The dealings were small.

Higher prices in some of the standard stocks brought out realizing orders, the reaction reaching a point in Union Pacific, Reading and Chesapeake and Ohio causing the list generally to sag below yesterday's closing. Pacific Telephone advanced 1⅝.

The stock market was influenced by technical considerations. Professional operators sold stocks on the ground that reaction was due on account of the extent of the duration of the preceding advance. The supply proved discouraging to the efforts to bid up prices. Such an effort was made in the second hour, but prices yielded to a lower level than before. Wisconsin Central declined 1⅜ and Erie Second preferred, American Sugar and Western Union 1. Hocking Valley was marked up 15 points on a few transactions, Pacific Telephone 2¾, Philadelphia Company 2¼, Westinghouse Electric 1¾ and American Smelting 1.

Bonds were irregular.

When the decline culminated traders bid up some of the important stocks a good fraction, but the demand soon ceased and the dealings became very dull. Westinghouse Electric gained 2⅝ and New York Airbrake 2.

Active stocks were immovable, but a number of the minor stocks were strong. Allis-Chalmers Preferred improved four points, General Electric 2, American Tobacco Preferred 1½ and American Sugar and American Woolen 1.

The market closed firm. A rise in the copper and electrical industrials was ascribed to developments in the trade. Tennessee Copper and National Lead rose 1, Utah Copper 1¼, General Electric 2½ and Westinghouse Electric 3¾. The general list stiffened slightly. St. Louis Southwestern Preferred rose 3½, Chesapeak and Ohio, MacKay companies Preferred and National Enemaeling 1½, Iowa Central Preferred 1⅜ and Minneapolis and St. Louis, Toledo, St. Louis and Western Preferred and Hocking Valley Coal 1.
